

Waterfront Building Redevelopment Project 04/19 Updates

This is a dedicated 'Project Updates' section for the Waterfront Building Redevelopment Project (04/19). Regular updates regarding the progress of the project will be provided here.

20/1/2023

The Community Panel were provided with a Summary of the Panel 3 session on 9th December 2022, in readiness for the fourth and final in-person workshop.

THE FOURTH COMMUNITY PANEL SESSION WAS HELD WEDNESDAY 18TH JANUARY 2023

SLRS presented the Community Panel with the draft concept designs developed by our Architects BHA, and for each option also provided indicative costings and estimated fee modelling from the Quantity Surveying works completed by WT Partnership.

During the session, the Community Panel:

- Dived deep into each option and considered if any changes were required
- In groups, panel members discussed and consolidated their final options
- A panel discussion consolidated the final options to 4, in readiness to present at the upcoming Q&A Sessions

NEXT STEPS

All Community Panel Sessions have now been completed and the 4 design concepts together with costings for each, will be available for review at the Q&A Sessions, which will be held throughout late February and early March 2023. Dates and times of the Residents Q&A Sessions will be released soon.

SLRS would like to thank all the panel members for participating in the entire process and their ongoing contribution to exploring opportunities for the Waterfront Buildings revitalisation.
